

ACCESSIBILITY and SAFETY PRODUCTS AVAILABLE THROUGH REBUILDING TOGETHER

House Captains: Order the accessibility and safety products you are willing to install. You can order the following items from the Supply *Order Form* available in the House Captain's Manual in the Forms section.

Dryer Wall Vent – www.dryerwallvent.com

Product Number 420

This durable enclosure meets or exceeds code requirements for safe dryer venting. 26-gauge galvanized steel body with powder coating ensures a long duty life. Clean lines make a nice aesthetic contribution to every home.

Flexible Dryer Duct Connector

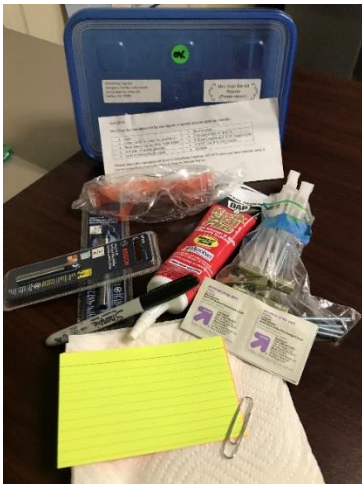

Product Number 421

Superior flexible dryer duct to be used as a transition from the dryer to the rigid metal.

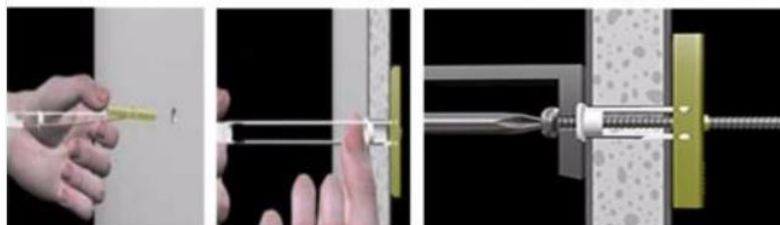

Mini Grab Bar Kit

Product Number 500

Mini Grab Installation Kit for one regular or special purpose grab bar includes:

- Rags
- Index cards to make templates on
- Sharpie
- Large paper clip as a wire “hole tester”
- One-pair of safety glasses
- Tube of white caulk
- Alcohol pads
- 2 Tile/glass bits 1/4” and 1/2”
- 4 SnapToggles and 3/16” toggle bolts
- 4 3/16” – 24 (#10-24) screws
- SnapToggles – to securely mount one side of the grab bar to the wall

REGULAR GRAB BARS
Product Numbers 502 – 506

Grab bars provide extra security in the bathtub for that first slippery step. Installed properly, good-quality grab bars are specifically manufactured to hold up to 250 pounds, giving you security and safety in your shower or tub.
